elifnazellzr

Elifnaz Ellezer

As a Computer Programming student at İzmir Economy University, I work on web technologies, user interface development, and database systems. I aim to continuously improve myself by developing user-focused projects using HTML, CSS, JavaScript, PHP, SQL Server, MySQL, Python, C, and C#. I am an open-minded candidate eager to learn, adaptable to teamwork, and with career goals in software development.

In general, I enjoy doing sports, discovering new places, and following the latest developments in software.

EXPERIENCE

■ 2024 – 2025 / Cashier / Waitress

Leos Coffee – 6 Months

■ 2025 – 2026 / Waitress
